

AI-LIN: Your Personal Assistant, in One Chat

Productivity · Finance · Health · Learning · Research All integrated inside Telegram.

📌 Built for people who want less friction and more clarity in their daily lives.

THE CORE CHALLENGE

Life is Fragmented.

Dispersed Data

Your tasks live in Notion, finance in spreadsheets, and health logs in scattered notes.

Tool Fatigue

You are forced to manage too many individual tools, each requiring a separate interface and login.

Context Switching

Constant manual administration and jumping between apps drains time and cognitive energy.

THE INSIGHT

People Don't Want More Apps. They Want Less Effort.

"I want things done automatically, without having to think about where to do them or how to format the data."

The most intuitive and low-friction interface already exists: the chat window.

Introducing AI-LIN: The Modular Assistant

AI-LIN is a modular, zero-friction AI personal assistant that lives entirely within Telegram, your favorite messaging app.

One Chat

No separate app to download, install, or maintain.

Multiple AI Specialists

Specific AI models handle different domains (e.g., finance, learning, health).

Auto-Sync

Seamlessly connects and syncs data with your existing productivity tools.

Zero Manual Admin

AI-LIN manages all the data entry and maintenance in the background.

🌟 You chat naturally. AI-LIN understands and handles the rest.

The User Experience: From Input to Insight

1

1. Chat Naturally

Input text or voice note in any language (e.g., "Catat pengeluaran hari ini").

2

2. AI Understands Intent

The core AI routes the request to the correct specialist.

3

3. Specialist Works

The relevant AI model processes the data and performs the necessary action.

4

4. Data Stored

Data is automatically categorized, logged, and synced with your connected tools.

5

5. Report Delivered

The user receives an immediate confirmation and, later, actionable summaries.

🧠 No dashboards. No setup headache. The focus is purely on conversational efficiency.

Five AI Specialists, One Connected Experience

AI-LIN operates through specialized, purpose-built models that ensure precision in every domain.

ASAMI

Productivity & Task Management, scheduling, and delegation.

YUAI

Income & Expense Tracking, budgeting, and financial logging.

REIKO

Workout & Health Logs, tracking activity, sleep, and nutrition notes.

YUKO

Research & Datasheets, quick information retrieval, and synthesis.

BINGLI

Mandarin Learning Progress, vocabulary tracking, and practice logs.

CUSTOMIZE

Can be customize deppend what your want & needs.

Real-World Use Cases: Just Talk

AI-LIN processes natural language inputs, eliminating the need for strict commands or structured formatting.

"Tolong update notes meeting. Key takeaways: new strategy, next steps are Q3 launch."

"Catat pengeluaran hari ini: 50 ribu untuk kopi, 200 ribu untuk makan siang."

"Aku stretching dan workout 45 menit tadi pagi. Fokus pada punggung."

"Hari ini belajar Mandarin selama 1 jam, tapi sibuk dan hanya sempat review 10 kata baru."

"YUKO, cari datasheet produk ini. Fokus pada spesifikasi teknis."

"ASAMI, reschedule rapat besok jam 2 siang ke jam 4 sore. Informasikan tim."

✦ AI-LIN supports multilingual, casual inputs, instantly transforming unstructured chat into structured data.

The Daily Intelligence Brief

Every morning, AI-LIN consolidates all relevant data and provides a single, actionable message to start your day with full clarity.

Productivity Status

Your top three priorities and pending tasks for the day.

Finance Summary

Weekly burn rate, remaining budget, and unusual spending alerts.

Relevant News

Curated news highlights based on your professional and personal interests.

Health & Learning

Workout recommendations, hydration goals, and new vocabulary from BINGLI.

Your personal command center, delivered precisely when you need it.

The Impact: Why AI-LIN Matters

By removing friction, AI-LIN transforms inconsistent tracking into reliable, compounded progress across all life domains.

Reduce Mental Load

Stop worrying about which app to open or how to format data.

Focus on What Matters

Reclaim time spent on admin tasks for deep work and personal life.

Stay Consistent

Achieve consistency in logging without suffering from discipline fatigue.

Track Life Effortlessly

Capture every event, expense, and thought without manual data entry.

Small actions, compounded daily, leading to massive long-term clarity.

AI Should Work Quietly in the Background.

Not another app to manage. Not another dashboard to monitor.

Just one chat that intuitively understands you.

AI-LIN

Your Personal Assistant, in One Chat.
